

existse-le^{0,22}

$\exists e \leq e'. P(e) \equiv_{\text{def}} \exists e: E. e \leq e' \ \& \ P(e)$

clarification:

$\text{existse-le}(es; e'; e. P(e)) \equiv_{\text{def}} \exists e: \text{es-E}(es). \text{es-le}(es; e; e') \ \& \ P(e)$
