

feasible-aframe-lemma^{0,22}

$\forall A:\text{MsgA}, x:\text{Id}, k:\text{Knd}.$

$\text{Feasible}(A)$

$\Rightarrow \langle k, x \rangle \in \text{dom}(\text{1of}(\text{2of}(\text{2of}(\text{2of}(\text{2of}(A)))))) = \text{true}_2 \in \mathbb{B}$

$\Rightarrow A.\text{aframe}(k \text{ affects } x)$
