

Inference at * 1
of proof for Lemma assert_of_eq_int:

1. $x : \mathbb{Z}$
2. $y : \mathbb{Z}$
3. $\uparrow(x =_0 y)$
 $\vdash x = y$
by Unfolds "eq_int" 3

1:

3. \uparrow if $x=y$ then tt else ff
 $\vdash x = y$
.
