

Inference at * 1 2 0
of proof for Lemma iff_preserves_decidability:

1. $A : \mathbb{P}$
2. $B : \mathbb{P}$
3. $\neg A$
4. $A \iff B$
 $\vdash B \vee (\neg B)$
by PERMUTE{1:n, 2:n, 2:n}

1:

5. B
 $\vdash \text{False}$
2:wf..... NILNIL

$\vdash B \in \mathbb{P}$

.
